

# Chessington Garden Centre

*Environmental Management Handbook*

**Environmental Objectives and Targets for 2009**

chessington  
Garden Centre .co.uk

- Objective** Prevent pollution and comply with environmental legislation  
**Target** Zero pollution events or non-compliant situations
- Objective** To reduce carbon footprint in relation to the customer throughput.  
**Target** Maintain achieved level of carbon emissions due to energy use per 1,000 customer transactions.
- Objective** To reduce mains water use.  
**Target** Implement a water recycling project to recover waste water – check its suitability for irrigation, toilets or other uses and, depending on the outcome, implement use of recovered water across site
- Objective** To implement a sustainable procurement policy.  
**Target** Continue to develop procurement capability to meet Level 2 in the Flexible Framework of the UK Procurement Initiative.
- Objective** To maximise recycling.  
**Target** Maintain recycling rate at 80%.
- Objective** Communicate environmental issues to stakeholders.  
**Target** Review signage around site to communicate environmental issues to customers by end March 2009 and update if necessary.

Jolyon Martin  
Managing Director
